

We are pleased to be working with A&A Trading on an exclusive search for a **Senior Business Analyst** working under the leadership of the Financial Controller.

A&A Trading Ltd. is a well-established and respected forestry business. For more than 30 years, they have delivered top quality products and services to their valued partners, clients, and customers. Their success comes from a can do, entrepreneurial and innovative approach to business. Their professional team of 50+ employees believes in respect, transparency and doing their best every day.

### **The Opportunity:**

The Senior Business Analyst, as a member of the finance team plays a key role in the sales and operating planning working directly with operations. As well the role provides insight into projects, sales, and inventory in a way that paints a clear and concise story for the stakeholders. This is an exciting opportunity to play an integral part of our continued success. If this description sounds like you, we would love to talk with you about this opportunity and our tight-knit culture. Along with great communication skills, you will be passionate about understanding business processes, and identifying opportunities to enhance cash flow and project profitability.

### **The Role:**

The successful candidate will oversee forecasting, projects reporting, sales, and inventory

- Manage integrity of the Sales and Inventory custom program
- Extract and validate data sets, conduct insights analysis
- Coordinate productions, sales, inventory plans for ongoing budgets and forecasts
- Oversee the preparation of monthly project reports for internal and third party
- Oversee weekly contractor pay runs including interpretation of related contracts
- Support and train operational leaders and staff in accounting related policies and controls including departmental cost control, cost/benefit analysis, and related continuous improvement opportunities
- Develop and maintain a solid understanding of sales and operations business practices and contribute to ongoing process and systems enhancements.

### **Who you are:**

An ideal person for this role has the following experience, education and experience:

- A university degree and preferably a recognized accounting designation
- 3-5 years of progressive experience in a similar role
- Experience in the forestry sector is an asset
- Excellent interpersonal skills
- Be highly motivated, self-starter
- Be a consummate team player
- Well versed in Power BI, Excel, Power Pivot and Power Query

***Please note: this role is located in downtown Vancouver and this person will be required to work in the office***
